

Viadux supplies products and services to a variety of industries including water and construction sectors. It recognises the need to implement business objectives that have sustainable and positive impacts on the environment

To achieve its objectives, Viadux will;

- *Establish and maintain an environmental management system in accordance with AS/NZS ISO 14001.*
- *Comply with all contract conditions, relevant legislation, and other criteria to which the company subscribes.*
- *Regularly review business operations, identify, and implement opportunities for improvement.*
- *Educate its workforce on key environmental issues, management controls and associated responsibilities.*
- *Strive to conserve resources, reduce waste, and carbon emissions and minimise environmental harm associated through our operations products and services.*
- *Maintain a culture of continuous improvement for our environmental impact by setting objectives and targets, monitoring progress, and communicating results to relevant stakeholders on a regular basis.*
- *Ensure ongoing compliance with all relevant statutory and other obligations, standards, specifications, and codes of practice.*
