

# VARI-GIB® COUPLINGS

DN 40 - DN 1200

NON-RESTRAINED MECHANICAL COUPLINGS FOR CONNECTING PIPES WITH EQUAL OR UNEQUAL DIAMETERS

## FEATURES

Vari-Gib Couplings can be installed without the need to disassemble, significantly improving speed and ease of installation

The variable OD range of each coupling often enables application on more than one pipe type and size, thereby significantly reducing stockholding requirements

Compatible with most pipe types

Specially designed wedge shaped nitrile rubber gaskets are suitable for use with water, wastewater and gas mediums

Fasteners have a captive head configuration to enable single spanner operation, facilitating ease of field assembly

Fasteners are 316 stainless steel for long life operation. Galvanised mild steel is available in sizes up to DN 300

A three bolt design is used in sizes up to DN 150 for ease of installation

Components are pre-lubricated during assembly to assist installation

An extended range of stepped couplings are now available

Manufacturing facility certified to the ISO 9001 quality assured standard

## DESCRIPTION

Vari-Gib non-restrained mechanical couplings provide an effective method for connecting pipes with equal or unequal diameters

## APPLICATION

Vari-Gib Couplings are ideal for joining two pipe ends together and are predominantly used in a maintenance situation where a section of burst or damaged pipeline is repaired by a cut-out and replacement method

Suitable for potable water, wastewater and gas applications. If used on gas piping, prior approval needs to be obtained from the asset manager for its application

Note: Vari-Gib Couplings are not recommended for use on polyethylene pipe.

## TECHNICAL DATA

**Size Range:** DN 40 - DN 1200

Please contact Viadux for information on additional sizes not detailed in this brochure (most sizes to DN 1200 available)

**Maximum Operating Pressure:** 1600 kPa (up to and including DN 600).

**Temperature Range:** -10°C to 60°C

**Product Certification:** AS/NZS 4998 Lic. No. SMKP25236 – applicable up to DN 600

# WANG CLAMPS & COUPLINGS

WANG is one of the leading manufacturers and suppliers of Grade 316 Stainless Steel Repair and Tapped Clamps as well as Couplings for reticulated water, sewerage and gas mains including industrial piping systems.

WANG products have become synonymous with quality and reliability. Our product range is widely utilised and relied upon by Water Authorities and Councils throughout Australia in the installation and maintenance of their supply mains and reticulation network.

WANG products can be sourced through the Viadux national sales and service network of customer centres.

Viadux is a specialist in integrated solutions for all your water and wastewater pipeline system requirements.

## KWIK CLAMPS

A full circle repair clamp for small bore galvanised steel, copper and PVC pipe. DN 15 - DN 50

## REPAIR CLAMPS

A fast, permanent and economical repair solution for most pipe types and sizes. DN 50 - DN 1200

## TAPPED CLAMPS

A reliable means of tapping into old, unstable or damaged pipe. DN 50 - DN 1200

## TAPPING SADDLES

Permanent tapping solution for both rigid and flexible pipe. DN 40 - DN 450

## FLANGED OFFTAKE CLAMPS

A cost effective means of achieving a "T" connection or under pressure tapping. DN 100 - DN 900

## SEWER OB JUNCTION CLAMPS

A quick method of installing a new property service connection on a sewer main. DN 100 - DN 450

## VARI-FLANGED COUPLINGS

Enable connection between a stub ended pipe and a mating flanged face. DN 80 - DN 600

## HIGH PRESSURE COUPLINGS

Provides a mechanical joint between similar or dissimilar pipes in high pressure environments. DN 150 - DN 2000

## SOCKET JOINT LEAK CLAMPS

Provide a permanent and economical seal over a leaking socket-spigot joint. DN 80 - DN 1200
